INCREASE SHOWN IN RECEIPTS OF FOREST SERVICE

STOCK EXCHANGE SCORES ANOTHER SHARP ADVANCE

Timber Sales Fall Off on Account of Business Depression but Other Income Brings Figures Up to High Mark.

SPECIAL CORRESPONDENCE TO MORNING JOURNAL
Washington, Aug. 4.—The national forests turned into the United States treasury during the fiscal year ended June 30, 1915, nearly \$2,500,000, an increase of more than \$10,000 over the receipts of the previous year, according to a statement just issued by the forest service. The timber sales, which amounted to \$1,164,000, yielded an amount of the depressed condition of the lumber industry about \$78,000 less than those of the previous fiscal year, but the gain was made possible by larger revenues from other sources. The grazing receipts, which totaled \$1,225,000, increased \$12,000 over last year, and the water power receipts, which amounted to \$1,200,000, showed an increase of nearly \$400,000.

The decimation of the turpentine industry on account of the year's curtailment of the naval stores market caused the receipts from the sale of turpentine privileges on the national forests to drop about \$9,000, or nearly \$15,000 last year. The sale of special use permits under which all sorts of enterprises, from aquaria to whaling stations, are operated on the forests, yielded nearly \$18,000, an increase of \$9,000 over last year. There was a decrease of nearly \$17,000 in the revenue derived by the settlement of trespass cases in which government timber had been cut without intent to defraud; the revenue from this source being only a little more than \$1,000. More than \$7,000, however, was collected from other trespass cases. Grazing trespass cases yielded nearly \$8,000, an increase of about \$1,000; occupancy trespass cases, which covered only one of the seven forests, decreased from something less than \$2,000 about \$600 were derived from hunting trespass cases, and \$600 from fire trespass cases, the latter being more than \$7,000, less than the amount collected in the previous fiscal year for damage to government property through fires carelessly or wilfully started in or near national forests.

In Arizona and New Mexico the national forests brought in \$256,000, of this amount, a total of 46 per cent, or \$112,000, goes to the states and counties for roads and schools.

DEPENDENCY DUE TO INDIGESTION.
"About three months ago when I was suffering from indigestion which caused headache and dizzy spells and made me feel tired and despondent, I took Chamberlain's Tablets and within weeks Mrs. Geo. Don, Macdonald, N. Y., 'This medicine proved to be the very thing I needed, as one day's treatment relieved me greatly. I used two bottles of Chamberlain's Tablets and they rid me of this trouble." Obtainable everywhere.
